February 1, 2010

Paul Stacey  
Bureau of Water Protection  
DEP  
79 Elm Street  
Hartford, CT 06106

Dear Mr. Stacey:

Water is the environmental issue of our century. Although our state has been blessed with ample rainfall, it is our responsibility to protect our water supply for future generations. Please do everything you can to change or eliminate the Class 4 Category in the Streamflow Regulations so that all our streams will have some level of protection and none will be allowed to run dry.

Sincerely yours,

Eleanor Fischer  
26 Main Street  
Groton, CT 06340
